

Job Title: Senior Network Engineer - Tier 3	Location: Albany, NY
--	----------------------

Position Description

QoS Networking, Inc. is looking for a Senior Level Network-Security Consultant to fill a key role in supporting one of our primary customers. Join a qualified team of network and security specialists providing managed and professional services to major agencies and businesses in the Capital Region and throughout New York.

Essential Job Functions

- Provide escalation support and direction for Tier 2 and Tier 3 network engineers
- Provide Network-Security Designs for a Multi-Site Data Center Network
- Provide Q&A training to other Network-Security engineers

Environment

You will be working in one of the largest and newest data centers in upstate NY. This is a multi-site - multi-vendor data center. The data center consists of the following equipment: Arista, Cisco, and F5 network and security products. The specific products are Arista 7260X and 7050QX Data Center Switches, Cisco ASA security appliances, FirePower NGIPS, Nexus 7k and 6ks Data Center Switches, F5 Viprion Application Delivery Controller and Global Traffic Manager.

Requirements

- 12 Years of Experience

Benefits

- Salary range 90k-110k
- Comprehensive benefits package, including health, dental, vision, 401k with employer matching
- Aggressive pay raises and promotions
- 15 days personal/vacation time
- Scheduled Training classes to reinforce your networking knowledge foundation
- Reimbursements for training and learning material and certifications tests
- Free training to help prepare for certifications
- Yearly and project-based bonuses

How to Apply

Please send the following to hr@qosnetworking.com:

- 1) Cover letter, including salary expectations
- 2) Desired position
- 3) Resume, including a career summary that qualifies you for this position

Note: All candidates must have a valid driver's license

Candidate Screening

The interview screening process is likely to involve a skills test over the phone. The skills test encompasses several brief questions to determine the candidate's level of expertise and to 'fact check' the experience listed in the resume. Submitted resumes should clearly show the experience in which the candidate has current working knowledge.
